Life hacks for Tuesday, July 2, 2019

1: Waterproof your shoes

To turn your canvas shoes into waterproof ones, you need nothing but beeswax and a blow dryer. Spread beeswax all over your shoes. Next, use the blow dryer to melt the beeswax until you can no longer see it. Voila! Your waterproof shoes are ready!

2: Dry your clothes faster

If you don't have a dryer and need to dry your clothes quickly, here's what you can do. Place your wet clothing on a dry towel. Roll the towel with the garment inside. Pick it up, and twist it as tightly as possible to squeeze out the excess water. After you've drained the excess water, hang your garment on a hanger to fully dry.

3: Start a fire

Chips are not just a tasty snack. Fat, oil, and the chemicals in potato (or other) chips make them a perfect fire-starting material.

4: Find small lost items

Use your vacuum cleaner to find tiny items you've lost, such as earrings. Just cover the end of a vacuum cleaner with a stocking or pantyhose, and start your search. Check from time to time to see if the object you are looking for is already there.

5: Find small, lost items

Use your vacuum cleaner to find tiny items you've lost, such as earrings. Just cover the end of a vacuum cleaner with a stocking or pantyhose, and start your search. Check from time to time to see if the object you are looking for is already there.
